Tram service information

● Blue route services

The Blue route service will operate with a normal timetable between Malin Bridge and **Birley Lane**.

● Yellow route services

During these works, a normal Yellow route will operate between Meadowhall and Middlewood.

● Purple route services

During these works, a normal Purple route will operate between Herdings Park and Cathedral (Meadowhall on Sundays).

What's happening in Area 2?

Work will take place to replace worn out track between Birley Lane and Donetsk Way. This is part of the Rail Replacement Project being managed by South Yorkshire Passenger Transport Executive (SYLTE).

During these works, the Blue route trams will operate between Malin Bridge and Birley Lane. The information in this leaflet will let you know what is happening to trams, tram replacement buses and also what tickets are valid where. These works are essential in ensuring that trams can operate for years to come and we would like to apologise for any inconvenience you may experience.

Halfway Park & Ride

Please note: This P&R will **remain open**. A tram replacement bus service will serve this site.

Connecting between buses and trams

On weekdays between 0645 - 0930 and 1600 - 1930, buses will run every 5 minutes. At other times, buses will match the tram frequency and we have designed our timetables so that trams and B2 buses connect at Birley Lane tram stop. However, a number of factors can affect this. Replacement buses in particular can sometimes experience unexpected delays as a result of traffic. We build a buffer into our bus timetables to allow for this but as the impact of traffic delays can vary from day to day, we can only apologise for any delays you may experience as this is outside of our control.

At quieter times of day, some bus services in particular can arrive earlier than intended and you may find that you just miss a connecting service. However the service you might have just missed won't usually be the one you were planned to connect with.

We understand that missing a connection in any circumstances can be frustrating however we regret that we are unable to hold services to wait for other services, due to the knock on effect this can have for other customers and other services elsewhere on the network.

2018 RAIL REPLACEMENT PROJECT

RAIL REPLACEMENT BUS SERVICE

The B2 bus service will operate from Birley Lane to Halfway, replacing trams. On weekdays from 0645 - 0930 and 1600 - 1930, buses will run every 5 minutes and at other times, buses will match the tram frequency.

Between Halfway Park & Ride and Moss Way, the B2 replacement bus service will run one, unchanged "core" route for the duration of Area 2 works, 23rd June to 8th August.

From Moss Way to Birley Lane, buses will run one of four routes*. This is due to road closures while work takes place on Birley Lane, Sheffield Road and Donetsk Way.

Unfortunately, this will mean that the B2 cannot operate along the tram route and the nearest bus stop may be located away from the tram stop normally used.

These routes are shown in the following maps along with the dates of the diversions:

ROUTE 1	FROM JUN 25	TO JUL 06	
ROUTE 2	FROM JUN 23	TO JUN 24	+ FROM JUL 07 TO JUL 11
ROUTE 3	FROM JUL 12	TO JUL 20	+ FROM JUL 23 TO JUL 27
ROUTE 4	FROM JUL 21	TO JUL 22	+ FROM JUL 28 TO AUG 08

*routes may be subject to change

Where do I buy my ticket?

If you're starting your journey on a tram, you can buy your ticket as normal from our on board conductor. If you start your journey on a rail replacement bus, you can buy your ticket from the driver. At some bus stops we will also have conductors at the stop, particularly at peak times. In this case, please buy your ticket from the conductor as this will help avoid a long wait at the bus stop when the bus arrives.

Usual Supertram fares and conditions apply to all journeys on replacement bus services. The table below shows which tickets are valid where;
